

Pfohl Affidavit Response to SD 30

MICHAEL L. PFOHL, first being duly sworn, testifies as follows:

- [0001] I am the owner of PF Data, a firm which provides an array of services ranging from data management to political consulting. Our clients includes campaigns and political organizations, lobby groups, and non-profit organizations. Our data services include processing of election voter data, targeting analysis, campaign fundraising list and compliance management, and designing customized software solutions for various organizations. My duties with PF Data include reviewing the rebuttal to challenges to recall efforts against Senator Hansen.
- [0002] In connection with my duties at PF Data, I have reviewed the rebuttal memoranda and all supporting affidavits, including the affidavit of John Hogan. I have prepared this affidavit and attached exhibits in connection with this review.
- [0003] In Mr. Hogan's affidavit, he provides analysis of Senator Hansen's challenges to the recall petitions and disputes certain categories of Senator Hansen's challenges. Upon inspection of the underlying evidence and date, in a majority of instances, Mr. Hogan's assertions are either inaccurate or fail to contradict Senator Hansen's challenges but rather support them.
- [0004] In paragraph 4a and Exhibit A of Mr. Hogan's affidavit, Mr. Hogan asserts that a Senator Hansen's challenges based on signer date are without merit. Upon reviewing the signatures he references, a majority of his assertions are simply false and the date that actually appears on the petition page is either missing or invalid. In other cases, Mr. Hogan's own data clearly agrees with Senator Hansen's findings. A list of Mr. Hogan's factual errors is attached hereto as Exhibit SD30HrA.
- [0005] In paragraph 4b and Exhibit B of Mr. Hogan's affidavit he disputes Senator Hansen's challenge of signer dates based on illegibility, numerical errors in dates, and ditto marks. Inspection of the specific petitions that are the subject of Mr. Hogan's assertions establish that the assertions are largely incorrect or do not change the validity of the dates. First, Mr. Hogan correctly notes that "ditto marks" are present in the date field for many signers, rendering them invalid under Wisconsin law. In addition, dates are clearly illegible, dates have been crossed off, and, as Mr. Hogan's own data entry attests, a number of dates contain numerical errors. A list of Mr. Hogan's factual errors is attached hereto as Exhibit SD30HrB.
- [0006] In paragraph 4c and Exhibit C of Mr. Hogan's affidavit he disputes Senator Hansen's challenge of signatures as being outside of the 30th Senate district. He attests to using the legislatures "Who Are My Legislators" ("WAML") to check these addresses. Yet Mr. Hogan's use of WAML is suspect. For instance, Mr.

Hogan attests that a city in Michigan lies within the 12th Senate District¹. Likewise, many other examples listed in Mr. Hogan's Exhibit C are incorrect. Exhibit SD30HrC, attached hereto, details all of the signers who are out-of-district and what Senate district they actually live in.

- a. Exhibit30HrC is comprised of data provided by WAML. When WAML could not find an address to correctly place it in or out of the district Geographic Information System (GIS) tools were used. GIS is the system that the Wisconsin legislature uses to draw the redistricting maps. It is extremely precise.
- b. GIS consists of specialized software and computerized maps and databases to store, display, and analyze geographic information. This is the same type of information and processes which produce the results generated by WAML, but rather than using WAML to locate the districts of individual legislators, the entire dataset of signatures was processed with ArcMap GIS to locate the addresses on a map and return their political geography (municipality, ward, senate district, etc.) on a bulk scale.
- c. As demonstrated by Exhibit SD30HrC, at least 2,335 signers clearly live outside Senate District 30.

[0007] In paragraph 4d and Exhibit D of Mr. Hogan's affidavit he disputes Senator Hansen's challenge to the municipalities of many signers. It appears Mr. Hogan misunderstand the nature of Senator Hansen's challenge, which was that the signer failed to list an accurate and correct municipality as required by the Government Accountability Board. Indeed, the following instructions appear at the top of every one of the recall petitions submitted: The following instructions appears at the top of every one of the recall petitions submitted: "**The Municipality used for mailing purposes, when different than municipality of residence, is not sufficient. The name of the municipality of residence must always be listed.**" A complete list of the incorrect municipalities and the corresponding correct information which should have been provided is included as Exhibit30HrD.

[0008] In paragraph 4e and Exhibit E of Mr. Hogan's affidavit he disputes Senator Hansen's challenge of missing, incomplete, or inaccurate address information provided for certain signers. In some cases, Mr. Hogan's own data confirms Senator Hansen's assertion that the address is invalid. In other instance, Mr. Hogan incorrectly mis-categorizes the reasons various addresses were challenged and Senator Hansen's challenge still stands. In many other instances, all or some portion of the address appears illegible on the petition so that it is impossible to

¹ Hogan Affidavit (In re Recall of Jim Holperin) Exhibit C at 13.- Hogan attests that 'Watersmeet' (error number 507) lies within Senator Holperin's district. Watersmeet is actually a city in Michigan, and decidedly not in Wisconsin's 12th Senate district.

confirm whether the address or the signer exists. Exhibit SD30HrE lists Mr. Hogan's factual errors.

[0009] In paragraph 4f and Exhibit F of Mr. Hogan's affidavit he disputes Senator Hansen's challenge of duplicative signatures. For the most part, Mr. Hogan relies on the fact that many of the duplicate sets of signatures and addresses are written in different handwriting. Mr. Hogan is incorrect in asserting they are not duplicates because the names and addresses are clearly the same person. Mr. Hogan is correct, however, in his contention that many sets of duplicative signatures and addresses are written in different handwriting. This establishes that the signatures and address are both duplicative and forged. Exhibit SD30HrF more fully explores the serious nature of these forgeries discovered by Mr. Hogan.

- a. A majority of the forgeries Mr. Hogan identifies involve circulators already highlighted elsewhere in Senator Hansen's challenges as having dubious collection methods, or who are otherwise of note:
 - Annette Lord
 - Matthew Betchol
 - Richard Smalley
 - Karen Garr
 - Mark Vigil
 - Sherri Ferrell
 - Richard Salway
 - Nichol Smith
 - Debra Razo
 - David Vander Leest
- b. One of the most striking examples of forgery discovered by Mr. Hogan appear on a page circulated by Mr. Vander Leest and Noel Lapp as seen here:
 - i. **Mr Vander Leest's page:**

- iii. To be clear, one cannot tell who committed the fraud in the case of Mr. Vander Leest's papers since there is no way to tell which - if either - of the two pages contain the 'valid' signature, or if an unknown third party added the fraudulent signature after the papers were certified by the circulator and submitted to the recall committee.
- c. A set of pages by local circulator David Fritsch and out-of-state circulator Annette Lord shows Michael J Wrobleksi's both printed and signed name. Neither printed nor signed name matches his signature on Annette Lord's page:

i. Mr. Fritsch's page:

		<input type="checkbox"/>

- d. Another set appears on pages circulated by two out-of-state circulators, Karen Garr and Mark Vigil where the two handwritings are clearly different once again, as attested :

- i. Karen Garr's page:

A handwritten signature in black ink, appearing to read "Karen Garr". The signature is written over two horizontal lines. There is a small checkmark or mark below the signature.

- ii. Mark Vigil's page:

A handwritten signature in black ink, appearing to read "Mark Vigil". The signature is written over two horizontal lines.

- e. Additional examples of forgery attested to in Mr. Hogan's affidavit can be found in D30HrF. However, there are likely many more beyond that list. Originally in Senator Hansen's challenge, these forgeries were simply categorized as 'duplicate names' by the volunteers reviewing the recall petitions. Thus, a more thorough review of the previously submitted "duplicates list" is warranted by an investigatory body. Out-of-state circulators account for over 325 instances of duplicate names that were included in the original challenges submitted in SD 12, 22, and 30. A full list of all of these out-of-state generated duplicates which warrants further review beyond what Mr. Hogan discovered is available in Exhibit SD30HrG.

Miscellaneous:

[0010] While researching the response to Mr. Hogan's affidavit, additional invalid signatures were discovered.

- a. Several signer addresses are business addresses, not residential, and are therefore invalid. These also appear in Exhibit SD30HrH.
- b. An invalid signer date is present for the signer on page 620, line 8 as no year is listed.

[0011] In an attempt to rehabilitate missing or inaccurate circulator addresses, the Recall Dave Hansen Committee relies upon an affidavit by Mr. Vander Leest attesting to his personal knowledge of circulators listed in Exhibit B of his affidavit. His personal knowledge is called into question by the following example:

- a. The ninth entry on his Exhibit B states the name "Greg Nelsston" of 2961 St. Pats Dr. It appears Mr. Vander Leest is attempting to rehabilitate a circulator originally challenged by Senator Hansen as error number 161 in the "Circulator Address Challenges" table, although the name was displayed as "Greg Delaston" of the same address in that challenge.
- b. Indeed, closer inspection of page 152 shows that the circulator's handwriting is difficult to read and it is unclear exactly what the last name is. It appears the first letter could be an "N" at a quick glance.

 **Certification of Circulator**

I certify:

- c. However, a reverse lookup of the address 2961 St. Pats Dr. on Msn.Whitepages.com (Exhibit SD30HrG) reveals the resident of that address is Gregory DeCaster, not "Greg Nelsston" as Mr. Vander Leest attests.
- d. While Mr. DeCaster's handwriting is difficult to decipher, presumably any person with personal knowledge of Mr. DeCaster would not need to rely on reading his signature in order to determine his last name.

Conclusion:

[0012] In conclusion, Mr. Hogan's attempts to rebut Senator Hansen's challenges in many instances simply fails factually. In many cases, his facts do not contradict but actually support Senator Hansen's challenge. In other cases, his claims appear to be in error due to data entry error on his part, as they do not match information appearing on the petitions referenced. In addition, Mr. Hogan's affidavit attests to and helped uncover an even larger and widespread occurrence of fraud within the recall collection effort that had heretofore gone undetected. Not only does the

majority of Senator Hansen's signature based challenges stand, but the new found evidence of fraud calls into question the rest of the recall effort.

Hogan's Exhibit F- Duplicates

Mr. Hogan incorrectly lists most challenged Duplicates as being invalid.
Closer inspection reveals that Senator Hansen's challenge is valid as well as uncovers serious evidence of Fraud

Duplicates where handwriting clearly matches (i.e., signer just accidentally signed twice)

Error #	Referenced	Pg & line	Pg & line of dupe Circulator	Reason Sen. Hansen Challenge stands correct
15	pg 473, line 6	pg 209, line 7	Annette Lord	Michael both signed and printed his name on pg. 209, neither signature nor print
57	pg 1059, line 1	pg 1016, line 7	Garr & Vigil	matches name that appears on Annette Lord's pg 473
73	pg 1274, line 4	pg 1313, line 8	Vander Leest	Krist's name appears twice, different handwriting
1	pg 32, line 3	pg 4, line 7		Reginold appears twice, clearly two different handwriting
14	pg 473, line 8	pg 1413, line 7	Annette Lord	signature illegible, but appears to be same person
